## Are you using your Town Link Radio effectively?

“The town link radio is a vital communication portal and allows users to stay in touch with other town centre retailers and CCTV however this will only work if ALL shops who have this have their radios on from the start of the day and not just turn it on when something happens.

It also allows businesses to communicate to other shops that know thieves are in the vicinity and visiting stores and can help them DETER shoplifters and prevent stock loss.”

**Mike Smith – Loss Prevention Supervisor, Debenhams**

If you are part of the Town Link scheme and think your team could benefit with additional radio training, the Town Rangers can deliver this for you on site. To arrange an appointment or find out more about the Town Link radio scheme email [emma@experienceguildford.com](mailto:emma@experienceguildford.com).
